

PACKAGING COMPLIANCE DECLARATION

Packaging and Packaging Waste Regulation (PPWR) — Regulation (EU) 2025/40

Coto Technology

Ave. Frontera Norte No. 3701, Parque Industrial Mexicali VIII, Mexicali, B.C., México

Registration / DUNS Number: 00119498

Date of Issue: August 2026

Declaration Reference No.: PPWR-2026-001

We, **Coto Technology**, hereby declare that the packaging materials and packaging components used with the products we supply to our customers, and placed on the European Union market by those customers, have been evaluated based on documentation provided by our packaging suppliers and manufacturers.

Based on the information available at the date of this declaration, we confirm that the packaging supplied with our products is designed and manufactured in accordance with the applicable requirements of the **European Union Packaging and Packaging Waste Regulation (PPWR), Regulation (EU) 2025/40**, and with other applicable packaging legislation, where relevant.

This declaration applies to the packaging associated with the products supplied by Coto Technology across the active product series listed below:

Product Line	Product Description	Series
CotoClassic™ Relay	Reed relays (through-hole)	12xx, 22xx, 23xx, 24xx, 29xx, 35xx, 36xx, 40xx, 5000, 55xx, 7000, 71xx, 73xx, 8000, 8L61, 900x, 9011, 9012, 909x, 9104, 9105, 9117.
	Surface-mount reed relays	2362, 92xx, 927x, 9290, 93xx, 94xx, 9814, 9852, 9853, 99xx
CotoClassic™ Switch	Molded reed switches	CT04, CT05, CT10, CM10
CotoMOS®	Solid-state (MOSFET) relays	C2xxS, C3xxS, C5xxS, C6xxS, C7xxS, CS1xx, CS2xx, CS3xx, CS4xx, CS6xx, CS7xx, CT1xx, CT3xx, CT4xx, CT6xx, CT7xx, S117S, S117T
RedRock®	TMR magnetic sensors	RR1XX

The packaging components within the scope of this declaration include, but are not limited to: label reel packs and product labels; carrier tape and reels; shipping tubes and tube end-plugs; shipping trays, lids

and covers; antistatic and moisture-barrier bags; desiccant units and humidity (dry) indicators; foam and cushioning pads; inner and outer cartons; fanfold kraft paper; bubble wrap; heat-activated covers; and packing and shipping labels.

The compliance assessment has been conducted using documentation obtained from our packaging suppliers, including supplier declarations of compliance, material specifications, technical data sheets, material-composition statements, recyclability assessments (where available), recycled-content declarations (where applicable), and regulatory compliance certificates.

Based on supplier documentation and our internal review process, Coto Technology declares that the packaging covered by this declaration complies, to the extent applicable, with the relevant PPWR requirements regarding packaging minimization; material identification and marking; packaging recyclability; restrictions on substances of concern, including the Article 5 limit of 100 mg/kg for the combined content of lead, cadmium, mercury and hexavalent chromium; the use of recycled content, where applicable; information and labelling requirements, where applicable; and other applicable packaging requirements under the PPWR.

Supporting technical documentation used to substantiate this declaration is maintained by Coto Technology and may be made available upon reasonable request, subject to confidentiality obligations and supplier agreements. Records are retained for at least five years for single-use packaging and at least ten years for reusable packaging.

Coto Technology maintains a supplier compliance program under which packaging suppliers are required to provide regulatory compliance information and supporting documentation. As a manufacturer established outside the European Union, Coto Technology does not itself register in the national producer registers of EU Member States; the EU importer or economic operator placing the packaging on the market is the responsible party for producer registration and Extended Producer Responsibility (EPR) obligations.

This declaration is based on the information available from our suppliers at the time of issuance and reflects a good-faith assessment. While reasonable care has been exercised in reviewing the documentation received, certain technical information remains under the responsibility of the original material and packaging manufacturers.

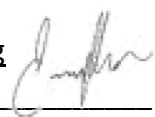

Validity

This declaration is valid from the date of issue and shall remain in effect unless packaging materials or suppliers change, the product packaging design is modified, applicable regulatory requirements are revised, or new information affecting compliance becomes available.

For and on behalf of **Coto Technology**
